SUMMARY

Passionate engineering and computer science student with a love for technology and innovation. Detail-oriented problem solver and natural leader with strong communication skills. Experienced in leading teams, fostering collaboration, and applying knowledge to real-world situations.

EDUCATION

New York Institute of Technology **Sept. 2026 - Present**
Degree (B.S.), Major (Mechanical Engineering) *Old Westbury, NY*

Nassau Community College **Sept. 2025 - May. 2026**
Degree (A.S.), Majors (Computer Science, Mechanical Engineering) *Garden City, NY*

- **GPA:** 3.2/4.0

Francis Lewis High School **Sept. 2021 - Jun. 2025**
Honor Roll (4.0 GPA), AP Student (7x) *Fresh Meadows, NY*

- **Engineering** — Advanced CAD/CAM, CNC Machining, Rapid Prototyping, Product Development
- **Robotics** — Competitive Robotics Engineering: Autonomous Systems, Sensors/Controls, Mechanical Integration, Team-Based Build Cycle
- **Virtual Enterprise** — Entrepreneurship + Business Operations Simulation: Product Planning, Marketing & Finance Exposure, Leadership + Professional Deliverables

PROFESSIONAL EXPERIENCE

STEAM Instructor, Launch Math & Science Centers **Jan. 2026 - Jun. 2026**

- Led Hand-On STEAM + Math Instruction for K-8 Students in 1:1, Small-Group, and Afterschool Class Settings
  - **Key Results:** Maintained High Student Engagement Across Coding/Robotics + Math Sessions
- Supported Student Confidence + Skill Growth Through Interactive, Project-Based Learning

STEM Coach, Race Hub STEM Activity Center & Raceway **Sept. 2025 - Dec. 2025**

- Led Hand-On STEM + Robotics Instructions for 1st to 9th Graders; Structured Weekly Builds, Labs, and Demos
  - **Key Results:** Supported 26 Students/Week; Delivered 3 Multi-Week Projects
- Built Curriculums + Lesson Plans across Robotics Fundamentals: Mechanisms, Sensors, Basic Programming
  - **Focus Areas:** DriveTrains + Gearing, Path Following w/ Pure Pursuit, Camera Vision, Autonomous Basics
- Managed Worksite Operations: Equipment Inventory, Safety Procedures, Student Progress Tracking

Chief Technical Officer, Francis Lewis Virtual Enterprise **Oct. 2024 - Jun. 2025**

- Owned Technical Strategy for Student-Run Enterprise; Translated Business Goals into Product Roadmaps
  - **Key Results:** Global Business Plan Finalists Ranked #12; NYC Business Plan Finalists Ranked #2
- Led Full Build Cycles: Requirements → Wireframes → Implementation → Testing → Live Demos → Product
  - **Deliverables:** Website/App, Analytics/Metrics, Internal Workflows, Customer-Facing Assets
- Drove Engineering Execution: Task Planning, Version Control Habits, Q&A, and “Demo-Ready” Reliability
  - **Stack:** Java; Python; Figma; Git; OpenAI; Gemini; Oracle; AWS

FIRST® Robotics Mentor, Francis Lewis Robotics **Sept. 2023 - Present**

- Mentored Programming + System Design; Ran Workshops on Autonomous Logic and Sensor Integration
  - **Key Results:** Improved Consistency by 75%; Reduced Failures by 90%; Trained 14 New Programmers
- Built Team Process: Code Reviews, Documentation, Test Plans, and a Troubleshooting Playbook
  - **Highlights:** Autonomous Routines, Driver-Assist Features, Telemetry/Logging, Library Implementations

TECHNOLOGIES, SKILLS & INTERESTS

Technologies: Java; Python; C++; HTML/CSS; AutoCAD; Fusion; Blender; CNC; 3D Printing; Google Workspace; Microsoft Office 365; Adobe Creative Cloud
Skills: Technical Leadership; Teaching/Mentorship; Curriculum Development; Debugging & Troubleshooting; Product Development; Project Planning; Team Collaboration; Communication; Problem Solving
